Understanding the life of the mind

Tavistock and Portman Charity | Small Bids Reporting Form

Project title	Jewellery making workshop
Name of successful applicant/ team	-

Please describe the lasting impact of this funding and who has benefitted (500 words).

The jewellery-making workshop was such a special experience for our team. Thanks to the funding we received, we were able to get all the materials—beads, stones, clasps, and tools—needed to create our own unique pieces. Our wonderful colleague Jackie, who has been making jewellery for years, took the lead in organizing everything and running the session. She patiently guided us through the process, teaching us how to make earrings, bracelets and necklaces. It was such a relaxing and enjoyable evening, giving us the chance to switch off from work, be creative, and spend quality time together outside of our usual setting.

Beyond just learning a new skill, the workshop had a lasting impact on our team. It was a great opportunity to bond, strengthen our relationships, and appreciate each other's creativity in a different way. And the best part was that we all got to take home something beautiful that we made with our own hands, a little reminder of the evening and the joy of learning something new together. The funding didn't just buy materials; it helped create an experience that left us feeling more connected, relaxed and inspired.

Please provide us with any pictures or testimonials that can be shared.
