

Tavistock and Portman Charity

Understanding the life of the mind

Tavistock and Portman Charity | Small Bids Reporting Form

Project title	Purchase of artworks
Name of successful applicant/ team	Art Curator on behalf of Eduardo Szaniecki, Consultant Child and Adolescent Psychiatrist

Please describe the lasting impact of this funding and who has benefitted (500 words).

This tapestry by a renowned Brazilian artist Sonia Maria Meliga Wysard was installed in staircase C on the third floor at the Tavistock Centre in spring 2025, after a request from clinician Eduardo Szaniecki.

This artwork is expected to enhance staff experience, particularly those based in the GIC services in the Belsize Wing. It is also going to be of benefit to service users visiting the department. Art is a much valued and requested element of the Trust. It adds to the ambiance of the building, transforming impersonal rooms and corridors into a much more welcoming space.

This particular piece of art delivers a much-needed variety to the Trust's art collection which lacks in textile works. It adds character to an otherwise nondescript, under-decorated staircase.
